Sub: Traffic, pollution and uncleanliness disturbing us.

Sir,

I wish to draw the attention of concerned authorities toward the issues that in our city, the increase in traffic, pollution and uncleanliness is disturbing the people and the environment.

The rapidly increase of private vehicles increase the traffic and this is the main cause of increasing pollution. In our city the roads, fields are uncleaned that cause the its impact on environment very badly.

The people of our city can't able to reach at time due to the high traffic jams. People

all also get ill and get their immune system weak due to the bad environment of our city. Some deaths also happens due to this. Childrens also suffering from bad smells that is increasing due to dropping waste in the fields, roads etc.

In the end, I hope that you will look into the matter and take an appropriate action to shoot out the problem at the better interest of the society and the nation.

Thanking you

Yours truly

CHOICES OF CUSTOMERS

The given bar graph shows the most preferred choices of the customers of a famous restaurant about saucy dishes.

Most of the customers preferred soup as compared to the other dishes. The customer preferred pizza and soup are in ratio 4:5 respectively. The customer of dish lasagna is $\frac{1}{2}$ of the customer who preferred Pizza. The Lasagna is preferred least as compared to other dishes. The burger is preferred by little less customer than Pizza but preferred more as compared to Lasagna.

The conclusion is that soup is the most favourite dish of the customers and Lasagna is the least favourite dish of the customers. Burger and Pizza are likely to be lies in between.
